

Botox Juvederm Party

Monday, June 7th 5:00-7:00pm

City Club Members and guests are invited to an evening of turning back the clock & complimentary wine and cheese.

Botox is the ultimate quick fix: it's a fast, fairly painless, and an effective way to get rid of wrinkles, for a while, anyway. You can't see Botox itself, but the results are highly visible: furrowed brows become smooth. Squinting eyes relax and the years seem to recede. Juvederm is used to smooth the laugh lines or nasolabial folds, lines at the corners of the mouth, vertical lines on the lip and lines between the eyebrows. Some scars, like acne scars, can also be injected to minimize its appearance. Lip augmentation and definition can also be achieved with these fillers, as well as other facial contouring and enhancement.

Dr. L. Jack Cheng, who did his residency at Emory, specializes in Antiaging and Aesthetic Medicine. Dr. Cheng incorporates cosmetic treatments like Botox Cosmetics, dermal fillers, lipodissolve and laser treatment into the overall wellness program designed to improve the quality of life for his patients.

Injections can be given on-site and everyone who attends will be given at a 15% discount!

Make your reservation today to learn more about the various procedures and to book a service by calling 404-442-2660 or emailing info@cityclubofbuckhead.com.
